OUTSIDE **THE BOX**

From the swept-back signature headlights right down to the boot lever, everything about the MG ZS's exterior feels inspired. Oozing performance and capability, this sleek, bold design looks right at home on smart city streets or off the beaten track.

BOLD COLOURS

You'll want to get noticed in your MG ZS, so we've made the colour choices super eye-catching. Including a Tri-coat dynamic red option for that wow factor. Prepare to shine.

SMART WHEELS

Head off to adventure the right way: on a set of gleaming alloys.

REFINED FEATURES

The little things can make the biggest impression. Like look-at-me daytime LEDs, or chrome touches on the grille that say premium, even when the price doesn't.

INSPIRED

INSIDE

So you get the most out of your MG ZS, we've thought very carefully about everything we put into it. Every inch of the stylish, super-sized interior has been designed to make sure the driver, the passenger and even the family dog want for nothing.

CONTROL

A family expedition, a getaway for two, even the daily commute – the MG ZS is equipped to be real-life ready. The visibility's great and the controls are easy to use. There's also an 8" touch screen* to keep you connected with the tap of a finger – and show you just where you're reversing. Prefer an automatic for an even smoother drive? No problem, the MG ZS can do that too.

COMFORT

You won't believe that an interior this smart costs so little. There are no hard plastics or budget finishes. Just beautifully soft materials, a carbon fibre design surround* on the infotainment display, and even stitched leather* options if you want more luxury.

CAPABILITY

Sure, the MG ZS has plenty of room inside, but we make it work hard too. There are plenty of clever storage ideas, like a split-level boot that gives a lot more space than meets the eye.

PAINT THE TOWN OR THE COUNTRY

Have a head-turning MG ZS in a shade that suits you.

The 'Dynamic Red' colour has been developed using a special coating technology that allows MG to achieve a deep and translucent finish with just three layers of paint, a big step forward from original production techniques that relied on up to 10 applications. The colour is hard-wearing – but also achieves enhanced brilliance and beautiful depth. This creates further drama to the exterior:

Be more than just red, be MG ZS Dynamic Red.
